

# Year Round Twice A Week Watering Program

City of Conroe  
Community Development

Environmental &  
Water Conservation

## Amended April 25, 2013

The following water activities are permissible under this mandatory twice a week watering program for irrigation systems and/or hose-end sprinklers.

- No restrictions on hand-held hose with nozzle, drip irrigation and soaker hose.
- No restrictions on washing cars, planes, motor bikes, boats or other vehicles.
- No restrictions on filling swimming pools or fountains.
- No restrictions on power washing.

**Violations subject to surcharge.**

Scan for current water  
conservation information.

**St. Augustine Grass watered daily promotes shallow roots that will not sustain the grass during a drought.**

The operation of landscape irrigation systems is limited to the hours between 5:00 p.m. and 8:00 a.m. of the following day during any two such periods in a given week.
