City of Conroe Profile 32
October 1, 2007

The City of Conroe is pleased to present the fiscal year 2007-2008 “Budget-In-Brief.” This document summarizes the annual budget for the fiscal year beginning October 1, 2007 and ending September 30, 2008.

A city’s budget presents in financial terms a plan to accomplish its objectives during the upcoming fiscal year. Budget preparation is an ongoing process as the City Council discusses priorities, commits to projects, and provides feedback to the staff on various proposals. The staff then translates that information into a financial action plan.

The budget for FY 2007-2008 is a balanced, conservative plan that continues our previous commitments toward quality services and facilities and addresses opportunities for additional improvements.

I must commend the ongoing work of the City Council, City Administration, the Management Team and all our fine city employees. We are indeed focused on our mission statement:

“To protect and serve the citizens of Conroe and exceed their expectations.”

Sincerely,

Tommy Metcalf

FY 2006-2007 Budget Summary

On August 23, 2007, the Conroe City Council approved a $79,765,962 budget with a 3% contingent appropriation for FY 2007-2008. Net of interfund transfers, the total budget is $66,563,734. The approved budget consists of the General, Enterprise, and Special Revenue Funds, as well as three Debt Service Funds.

General Fund

The General Fund accounts for 48 percent of the budget and supports basic services such as police, fire, parks, recreation, streets, and other community services. It is the general operating fund of the City and is used to account for all transactions and operations of governmental units that are not accounted for in another fund. The General Fund also is used to account for transactions financed from taxes or other general revenues.

Enterprise Funds

The City has two Enterprise Funds, the Water and Sewer Operating Fund and the Water and Sewer Construction Fund, which together comprise 19 percent of the budget. Enterprise Funds are those that fully support their own administration, acquisition of facilities, operation, and maintenance through the collection of user charges such as water sales, sewer treatment sales, and associated fees.

Debt Service Funds

The Debt Service Funds category is composed of three funds: General Obligation Debt Service Fund, Water and Sewer Debt Service Fund, and Conroe Industrial Development Corporation (CIDC) Debt Service Fund. These three funds account for 12 percent of the budget and pay for the annual interest and principal costs of the City’s debt.
The General Obligation Debt Service Fund provides for the payment of the City’s certificates of obligation and other tax-supported debt issued to finance the tax-based portion of the City’s Capital Improvement Program. The Water and Sewer Debt Service Fund provides for the retirement of revenue-supported bonds that are used to pay the cost of improvements to the City’s water and wastewater system. This debt is repaid with revenues collected from utility customers. The CIDC Debt Service Fund provides the funds necessary to retire the outstanding sales tax revenue-supported debt of the City. This debt consists of revenue-supported bonds that are used for economic development purposes and is repaid with a portion of the ½-cent sales tax charged within the City.

Other Funds

The Other Funds category of the budget includes funds used to account for the proceeds of special revenues, other than expendable trusts or major capital projects. They make up 21 percent of the budget and include such funds as the Conroe Industrial Development Corporation (CIDC) Revenue Clearing Fund, CIDC General Fund, Community Development Block Grant (CDBG) Entitlement Fund, Conroe Tower Fund, Vehicle and Equipment Replacement Fund, Service Center Fund, and the Self-Funded Insurance Fund.
General Fund Expenditures

Enterprise Funds Services

Public Works $10,912,632

The Utilities/Meter Readers Department’s mission is to ensure accuracy in the assessment of user charges; maintain professional and responsive service; answer inquiries for customers; and provide accurate and timely billings through progressive and innovative systems. It also strives to ensure accurate and efficient data collection of water and sewer usage, as well as to provide timely water meter installations and repair.

Public Works Administration is responsible for managing resources dedicated to the provision of water utilities and maintaining streets and drainage. This department assists in the engineering design standards and construction criteria for many programs required by State and Federal law. The department also updates all permits and plans the water distribution emergency response plan.

The Water Department provides the installation of large meter service and lines to residential and commercial customers. The department participates in relocating lines, repairing broken lines, replacing faulty meters, and constructing new lines.

The Waste Water Treatment Plant treats and discharges up to 10 million gallons of raw sewage daily. Staff also handles the Industrial Pretreatment program by issuing permits to industrial users within the city limits and monitoring their discharge through monthly reports and inspections.

The Sewer Department performs sewer line maintenance and installation services to residential and commercial customers by utilizing resources dedicated to preventive maintenance and repair of utility infrastructure.

The Pump & Motor Maintenance Department maintains lift stations, water wells, the wastewater treatment plant, city facilities, traffic signals, and downtown lighting. This department was previously named “Building Maintenance” in the General Fund. It was renamed “Pump & Motor Maintenance” and moved to the Water & Sewer Operating Fund in FY2006-2007.
The Project Engineering Department was established to design major improvements to the city’s infrastructure; specifically, to increase the capacity of the water and sewer systems and better manage storm water run-off. The improvements are designed in-house and constructed by either a division of Public Works or by a private contractor.

The Project Construction Department is responsible for the major construction of water and sewer lines that provide safe distribution of water and wastewater service to the citizens of Conroe by utilizing resources dedicated to the preventive maintenance and repair of utility infrastructure.

Enterprise Funds Revenue Sources

The Enterprise Funds have a variety of revenue sources, the most notable of which are Water Sales, Sewer Charges, and Transfers In. Water Sales constitute 43 percent of all Enterprise Funds revenues, while Sewer Charges constitute 34 percent. Transfers In, which come from various Capital Improvement Program (CIP) Funds, constitute 16 percent. Other sources of revenue that support the Enterprise Funds are Water and Sewer Tap Fees, Reconnection Charges, Pretreatment Fees, Interest Income, and Other Revenues.

Enterprise Funds revenues are anticipated to increase as a result of the continuing growth of the City. The FY 2007-2008 budget includes a water and sewer rate increase of 5.25% and increasing the sewer maximum for residential to 10,000 gallons. Additionally, water bills will reflect a pass through of a fee charged to the City by the Lone Star Ground Water Conservation District. Proposed revenues for FY 2007-2008 assume an overall growth of 12.6 percent over FY 2006-2007 projections.

General Obligation Debt Service Fund
$6,846,296

The General Obligation (G.O.) Debt Service Fund was established to account for the payment of principal and interest on outstanding tax supported debt. When this debt was issued, property taxes were pledged to repay the bondholders. Its primary revenue source, therefore, is property taxes.

A transfer in from the Tax Increment Reinvestment Zone (TIRZ) #3 Fund is also made for bonds that were sold in 2003, 2006, & 2007 to benefit that zone. This TIRZ was established to fund regional roadway improvements in the City. The City and the County both dedicate a portion of the taxes received from property value growth in the TIRZ, which is used to pay the principal and interest of the 2003 bonds. The bond proceeds have been used to widen and improve portions of League Line Road, Longmire Road, and 7th Street Phase 1 (Kidd Road). As additional growth occurs in the TIRZ, more bonds will be sold for additional improvements.

An additional transfer in will be made this year from the Conroe Industrial Development Corporation (CIDC) Fund. This transfer will cover the principal and interest costs for bonds that were issued to make improvements to the park system. The CIDC fund is made up of revenues from a 1/2-cent sales tax for economic development. These park improvements qualify as permissible projects for this particular sales tax.

2007-2008 G.O. Debt Service Revenues:
Property Taxes $ 5,643,700
Transfer In 1,847,915
Interest Revenue 132,050

G.O. Debt Services Revenues Total $ 7,623,665
Water & Sewer Debt Service Fund
$1,128,198

The Water & Sewer Debt Service Fund provides the funds necessary to retire the outstanding revenue-supported debt of the city. Debt in this category consists of revenue-supported bonds that are used to pay the cost of improvements to the city’s water and wastewater system, and it is repaid with revenues collected from utility customers.

There are three outstanding bond series that were issued with a pledge to repay bondholders from water and sewer revenues. The payments on these bonds are accounted for in this fund. Its main source of revenue is an annual transfer of money from the Water & Sewer Operating Fund.

2007-2008 Utility Debt Service Expenditures: $1,128,198

2007-2008 Utility Debt Service Revenues:
Transfer In $1,114,698
Interest Revenue 13,500
Utility Debt Service Revenues Total $1,128,198
CIDC Debt Service Fund
$1,618,450

The Conroe Industrial Development Corporation (CIDC) Debt Service Fund provides the funds necessary to retire the outstanding sales tax-supported debt of the city. Debt in this category is repaid with the ½-cent sales tax for economic development.

There are two bond issues in the CIDC Debt Service Fund. Bonds issued in 1997 are for the construction of the west side sewer trunk main, additional sewer projects, and a police station. The bond series issued in 1999 was used to acquire and improve property to be used for the development of an industrial park important to the economic growth and development of the City. The payments on these bonds are accounted for in this fund. Its main source of revenue is a transfer from the CIDC Revenue Clearing Fund.
